

HOW BEAUMONT IS KEEPING YOU SAFE

A clean, secure environment for care

Separate care areas for COVID-19 and non-COVID-19 patients where possible

Screening for COVID-19 symptoms at the door

Face masks provided to everyone, regardless of symptoms

Proper PPE for all team members

Frequent disinfecting and cleaning

Chairs in public spaces spaced for social distancing

Staggered appointments to minimize people in a given area

Sanitizing stations throughout the facility

SAFE ACCESS TO THE CARE YOU NEED

While leading Michigan through the COVID-19 pandemic, Beaumont's dedication to your health and safety has never wavered. Whether you're due for a screening, need to see your doctor or have an emergency, our expert doctors and caregivers are here to keep you healthy and catch conditions before they become more serious. Don't put your health on hold. We are here for you.

+ IF IT'S AN EMERGENCY, DON'T WAIT.

Delaying care in an emergency can be dangerous for you and your family. That's why we're taking extra steps to protect your health and safety, so you can feel confident coming to any Beaumont Emergency Center.

- all patients, visitors and employees are screened for COVID-19 symptoms
- hand sanitizing stations are available throughout the facility
- we continue to regularly clean and disinfect all our sites
- a mask covering the nose and mouth is required at all times
- seating in public areas is spaced to allow for social distancing
